PREFACE.

It has been my object to make a directory that is complete and reliable containing so much practical information as possible. I have not only given the location of each adult, but I have shown his or her matrimonial relation.

In this work the ladies' names have been given consideration as well as mens' names

I have added to the taxable inhabitants of the county, who reside outside of the incorporated villages, the number of acres assessed and the amount of his or her assessment, both real and personal as shown by the town assessment roll of his or her town, of the year 1894.

This work is divided in four general divisions, as follows,—Medina, Albion, Holley and Orleans County, outside of the three mentioned villages. The villages are each divided in three parts, the first part containing miscellaneous matter, as Village Officers, Fire Departments, Schools, Churches, Orders and Societies; the second being the alphabetical directory of the Villages; and the third being a directory of the Village business places alphabetically arranged according to their business.

JOSEPH SWART,
Compiler.

Medina, N. Y., 1894.

ABREVIATIONS EXPLAINED.

Single, s; widow or widower, w; wife's christian name enclosed in the parentheses; retired from business, re.

The capital letters placed immediately after the occupation represent the town in which he or she resides. Albion, A; Barre, B; Carlton, C; Clarendon, Cl; Gaines, G; Kendall, K; Murray, M; Ridgeway, R; Shelby, S; Yates, Y.

The nnmbers, through the country part of the directory, represent the assessment. The first number is the number of acres assessed for in the town in which he or she resides; the second number is the amount in hundreds for which the said acres are assessed; the number following the small letter "p" is the personal property assessment expressed in hundreds. The figures when placed at the end of the line represent that the assessment is to the husband, and when enclosed in the parentheses, with the wife's name, it means that she is assessed for the amount so enclosed.

This assessment is taken from the town assessment roll of 1894. Where the property is in two or more pieces, I have added them and have given the amount. If the assessment is to two persons, I have given to each, one-half of the assessment.
